Coming Saturday, June 1 to a Parking Lot Near You!

Drive-in Movie on McCaslin and City of Louisville Open House

How to watch the movie:

Enjoy this FREE family-friendly event! Bring chairs and blankets to sit outside and watch the movie on the big screen with speakers up front or enjoy a drive-in movie experience with the movie's sound coming through your car's FM radio.

About the Open House:

Visit the City of Louisville Open House booths before the movie to learn about projects including the redevelopment of the McCaslin Blvd. Parcel O, Library Summer Reading Program and employment with the City of Louisville. The first 300 people to visit one of the City of Louisville Open House booths will receive a **FREE ice cream from the Sweet Cow Ice Cream Truck!**

Saturday, June 1, 2019

550 S. McCaslin Blvd, Louisville

former Sam's Club / Ascent Church Parking Lot

Food Trucks and Open House begin at 6:00

Movie at Sundown (approximately 8:15pm)

Movie Selection & Food Truck List:

City of Louisville Trash Service Update

Republic Services is proud to partner with the City as the new solid waste, recycle and compost provider. Services will begin with Republic on September 10, 2019. Republic will provide collection services every Tuesday through Friday. Many residents will see a slight change from their current collection day. You can expect additional information from Republic about routing schedules in late summer.

New Color-Coded Cart System - Residents will receive a blue Republic cart with a color-coded lid to designate all three waste streams. The color code is as follows: black lid (solid waste), light blue lid (recycle) and green lid (compost). The existing City programs that includes three available cart sizes for each waste stream will remain the same under Republic's collection.

New Rate Structure - Rates will be based on your solid waste cart size and includes recycling and compost collection. You no longer have to subscribe with additional fees for compost. Choose any size recycling and compost cart to fit your waste generation needs, regardless of solid waste container size. Additional carts are available for residents who already subscribe to the largest cart (fees do apply). The new rate structure is as follows: \$12.75 for 32-gallon solid waste cart, \$25.50 for 64-gallon solid waste cart or \$38.25 for 96-gallon solid waste cart (recycle and compost included in all rates).

Choose Your Cart Mix - The City has provided Republic with a list of addresses and current cart mix associated with that address. If you are happy with your mix of carts, no further action is needed and carts will be delivered to your address in August. If you prefer to make changes to your mix of collection carts, further outreach will be coming in May and June with a process to choose your personalized cart mix.

Additional information is available on the City's website at www.LouisvilleCO.gov/TrashService. Thank you for your understanding and patience as we go through this transition!
