

Louisville & Superior Vietnam-Era Veterans

This document provides a comprehensive list of Louisville men who served in the United States Military during the years of the Vietnam War (1955-1975). This list also includes men from Superior because of the town's close ties to Louisville through proximity, family connections, and the fact that Superior students attended Louisville High School. There were no women from Louisville or Superior that were identified as serving in the Vietnam War. Thank you to Bridget Bacon for researching and compiling this list. If you have additional information about the people on this list, please email the Museum at museum@louisvilleco.gov.
